

CMD Verification

CMDs or their employers can confirm CMDs' credential is current by navigating to: <https://mdcb.learningbuilder.com>

- Click on "Certificate Verification" on the left-hand side of the blue bar near the top of the page
- Enter First and/or Last Name in the box provided
- Click on the download icon to the right of the CMDs name for a PDF verification letter

Certification letters indicate the expiration date through which credential renewal fees have been submitted.

There is no need to create an account!

Google Chrome and Firefox work best in regards to downloading the PDF verification letter.

Thank you,

MDCB

MDCB CE Center Views and Functions

The CE Center offers three ways to view information about your MDCB learning plan. Under the "My Cycle" tab you will find the following three links:

1: Dashboard - The default landing page when you log into the CE Center is your "Dashboard." This view offers a summary of your current learning plan on the left side of the page and the most recent communications sent through the system on the right.

2: My Learning Plan - This link takes you to the open learning plan for your current five-year cycle. Each course entered for CE credit is listed under the activity type (ex. directed journal readings or applications training courses).

3: Learning Plans - This link shows all available learning plans in the database and is the link you would choose to begin a new learning plan. Submitted plans are locked for adding activity but can be viewed to see activities completed during previous cycles.

Thank you,

MDCB.
