

### [MDCB Article Published in the Red Journal](#)

The MDCB's article, *Update on Requirements for Medical Dosimetry Certification in the United States* has been published in the October 1, 2018 issues of the International Journal of Radiation Oncology, Biology, Physics, Volume 102. The article informs the Radiation Oncology community about the strict exam eligibility requirements, as well as adherence to recognized best practice standards in the development of the exam to meet the ever-changing and increasingly demanding field of medical dosimetry.
